

# Benefits

## of Woods Division

### Quality

Provides products, services and competitive pricing you can rely on.

### Products

Manufactures custom products such as wooden pallets, collapsible crates, shipping crates, storage boxes, crane pads, sheds, skids and window bucks.

### Design

Offers design capabilities to suit size and weight specifications for any custom or industry-standard pallets over 24”.

### Experience

Has more than 35 years of manufacturing experience.

### Compliant

Uses only heat-treated compliant, Grade 3 (medium-grade) Douglas Fir or pine wood.

### Partner

Partners with Nature’s Packaging, which is a North American initiative to develop and deliver sound, fact-based materials on the environmental opportunities associated with wood packaging selection decisions.

**A SOCIAL  
ENTERPRISE  
BY CHRYSALIS**

## Our Story

Chrysalis: An Alberta Society for Citizens with Disabilities (Chrysalis) is a registered Canadian charity and not-for-profit society that has operated in the Metro Edmonton area since 1968, and the Calgary area since 1988. Our core purpose is designing personalized services to meet the needs of the adults with developmental disabilities that we serve, while providing meaningful outcomes for growth and community inclusion for them.

About 85% of Chrysalis funding is from the government. Remaining funds come from fund development activities and the profits from our social enterprises, Chrysalis Woods & Plastics LP and chrysp LP.

In 1975, the Plastics division was created to provide a training centre and supplement the funding of the non-profit side of Chrysalis.

In 1985, a Woods division was added. Our with product range and customer reach both expanded throughout Alberta and neighbouring provinces.

In 2020, the new chrysp business unit took us into greener areas that reduced our global footprint by cultivating healthy and locally-grown produce year-round using a hydroponic system.

## Our Clients

Our loyal long-term client base is quite diverse and covers many market sectors such as:

- Agricultural
- Architects
- Art galleries
- Concrete
- Construction
- Energy services
- Food industry
- Home builders
- Lumber retailers & suppliers
- Oil and gas industries
